

Literacy Development

- At home, read the story 'We're Going on a Bear Hunt' by Michael Rosen. If you don't have a copy of the book at home, you can watch it being read and performed by the author himself on YouTube <https://www.youtube.com/watch?v=OgyI6ykDwds&t=2s>
- If you have access to a printer, download the attached story map template and encourage your child to have a go at drawing pictures to re-tell the story in the boxes. No printer? No problem! Instead, ask your child to draw some simple pictures to tell the story in their own words.
- It would be wonderful if you could encourage your child to host their very own teddy bears picnic. Find as many teddy bears as you can and bring them together

in your house or even in your garden. You could sing songs and enjoy some lunch or snack. I would love to see some pictures so remember to tweet me @MrsHarrisN

Mathematical Development

- Lots of people have put teddy bears in their window. If you do a daily walk, remember to look out for bears. How many can you spot along the way?
- This week, I want you to explore the number 1. In your home learning packs that were sent out, you will find a number booklet. If you haven't already, have a go at completing the number 1 page. I have uploaded another copy for anyone who needs it or wants to give it another go.
- Look around your home. Can you spot a number 1 anywhere? Here are some clues: Check your TV remote control. Do you have a clock anywhere? Look in a book for the page numbers!
- Watch the BBC Numberblocks video all about number 1 on BBC iPlayer...
