

Communication & Language

Talk to your child about how some children and grown-ups use signs to help them communicate with their friends. As we are thinking about colour this week, together watch Mr Tumble use Makaton signs for 'I can sing a Rainbow'.

<https://www.bbc.co.uk/cbeebies/watch/something-special-i-can-sing-a-rainbow>

Can you sign along with him?

Personal, Social & Emotional

In our communication and language activity, we have spoken about how everyone is different - for example, some people communicate using sign language. Spend some quiet time with your child, looking at all the things that are the same and different between you. Help them to understand that everyone is unique and special in their very own way!

Physical Development

Encourage your child to have a go at moving in ways that represent the different animals in the story 'Brown Bear, Brown Bear, What do you see?' (See the English & Maths Planning)

Can they flap their arms like a bird, swim like a fish, gallop like a horse or jump like a frog?

Understanding the World

Please download the 'Religious Education - Pentecost' document from the Archdiocese of Liverpool to explore together at home.

Talk with your child about how and why we see rainbows in the sky. Use this CBeebies video to help explain it..

<https://www.bbc.co.uk/cbeebies/watch/messy-goes-to-okido-what-makes-a-rainbow>

Expressive Arts & Design

Go on a 'Colour Hunt' and use the template that has been uploaded on the class page to record what you find. This could be a walk around your house or an outside walk during your daily exercise.

Can you use an old magazine to create a collage of colours?
