

Communication & Language

Go for a walk in your local area. Use your senses to explore. Talk to your child about what you can see, hear and smell on your walk.

Ask your child to choose their favourite book and read it to them. Encourage your child to talk about what they can see in the illustrations.

Personal, Social & Emotional

As our school year is coming towards the end, take the time to think about what you enjoyed in your class. We have attached a template 'My School Year Memory Page' for you to complete on our class page.

Play a game with a member of your family. Remember that in games we must take turns and sometimes we might lose, but that is ok!

Physical Development

This week in our bubbles we have been enjoying dancing to a range of songs. We have been using The Learning Station on YouTube to practise our best moves!

<https://www.youtube.com/watch?v=gE7zCfxJ7bE>

Our favourite is 'Move and Freeze'. Which one is your favourite?

Understanding the World

Many of the children have been showing an interest in aerial maps this week. Use Google maps to explore your local area. Can you find where you live? What else can you see?

Please download the 'Religious Education - 'Universal Church' document from the Archdiocese of Liverpool to explore together at home.

Expressive Arts & Design

This week we would like you to design a play area for your local area. Have a think about some of the equipment that we might use in a play area.

If you're feeling really creative, why don't you have a go at using junk modelling to create your own play equipment or play area? Don't forget to tag us!
