

This week is a very special week as it is our final week of the academic school year! We can't believe what a crazy year it has been for us all and we want to say thank you to all of our children, parents and families for the wonderful support you have been during these challenging times. This 'Covid' generation of children are extremely unique and the experiences you have provided for your child during lockdown will never be forgotten.

-----

This week's home learning activities are a celebration of the school year!

We would love to see you make a special 'Thank You' card for someone who has helped you with your home learning throughout lockdown. This could be your Mummy or Daddy, Grandparent or older brother or sister.

Draw a picture of your favourite memory from your time in school before lockdown happened. Have a go at writing what you have drawn.

You have changed lots during our time apart. Have any of you had a birthday? Send us a picture showing us how old you are now using your fingers! Can you write this number down or use marks to represent it? Have a go at hunting for this number around your house!

Your teachers have been very busy making a 'Welcome' transition video to say hello to you all! If you are moving to Reception, Mrs Ward is looking forward to finding out more about you and the different things that you like. If you are staying in Nursery or joining us from September, Mrs Harris is looking forward to finding out how you are developing your independent skills!

We would love to see you reply to our videos by sending us a little message via our class twitter pages @MrsHarrisN and @MrsWardR

Attached on our class page is the Spread the Happiness '50 Things to do during the Summer' activity chart.

How many of these things would you like to do? Stick this chart up in your home and cross them off as you complete them. There are so many fun activities that you can do together. Some of my favourite are number 14, 32 and 46. We would love to see you ticking off as many as possible.

This week we would love to see you getting outside in the fresh air.

Grab a camera and explore the world around you. Go for a short walk around your local area and take pictures of the different things you can see along the way.

This week is about having fun!

 Have a small party in your house to celebrate the completion of this academic year. You could have an afternoon tea party or enjoy some tasty hot dogs and burgers. Whatever you choose to do, make sure you play lots of music and have a dance around your living room or garden!

After a busy week of learning and celebrating, it is important that you take the time to wind down as well.

 Watch 'Cosmic Kids Yoga Mindfulness' sessions to help relax your brain and allow your body some calm time.

 Remember to check @MissLucyPE for daily challenges throughout this final week. We are sure that there will be plenty of prizes and opportunities to help our class win points!

Again, we couldn't have made it through this year without your wonderful support. We are so grateful to have such superb families and we hope you have a summer filled with laughter and happy memories.

Mrs Harris & Mrs Ward
