

WALT: Read and write Roman numerals to 100

- Each diagram shows a number in numerals, words and Roman Numerals.

Complete the diagrams.

- Complete the function machines.

Solve the following calculation:

$$XIV + XXXVI = \underline{\quad}$$

How many other calculations, using Roman Numerals, can you write to get the same total?

Mo says:

In the 10 times table,  
all the numbers have  
a zero. Therefore, in  
Roman Numerals all  
multiples of 10 have  
an X

Research and give examples to prove  
whether or not Mo is correct.
