

TOPIC TASK: Design, create and evaluate a pasta salad

WALT: Design, create and evaluate our pasta salads.

To make sure a meal is healthy, we must have food from different parts of the eat well plate.

Can you design a pasta salad that has ingredients from each part of the plate?

Draw and label the ingredients that you are going to use!

- Fruit and vegetables
- Bread, rice, potatoes and pasta
- Meat, fish, eggs and beans
- Milk and dairy foods

Draw a picture of your pasta salad here.

Make sure you include all of your different ingredients!

Remember to use your chopping and layering techniques.

Write step-by-step instructions with numbers of how to make your pasta salad.

Evaluation

Did you like your pasta salad?

What did you like about your pasta salad? 😊

What didn't you like about your pasta salad? 😞

What would you do differently next time? →

Please remember to tweet your pasta salad on our class twitter page @MrsSadiqY4
